WASHINGTON INTERESTS .- It is sincerely to be hoped that our fellow-citizens of Washington and Georgetown will appreciate the importance of harmonizing upon the many questions of expenditure for improvements in this quarter, which are to come before Congress this winter. A want of harmony did much against the interests of the District at the last session, the injury being principally inflicted by individuals bent on making speculations for their own pockets out of the success of schemes running counter to the plans of the authorities for the advantage of the community at large We trust that none have forgotten that the water works appropriation was defeated by and through prejudices against the particular im provement, generated by individuals among us notoriously bent only on feathering their own nests by procuring the adoption of other plans We need hardly remark that the success of such schemes, with nine-tenths of the people of the District of Columbia opposed to them, is beyond possibility. The man who does not appreciate this fact, has but half an eye in

It is possible for both Georgotown and Washington to select a committee of reliable, energetic, long-headed and influential citizens, who, acting in concert, shall be charged with the duty of attending to the interests of the District, as involved in the legislation of the approaching session. We know well the difficulties surrounding the task of obtaining for the District what it should rightfully have at the hands of the National Legislature, so overwhelmed as they will be with important questions foreign to our affairs. The Star labored during the last session with unremitted zeal to that end, and its conductors, from their observation at that time, are fully convinced of the necessity for some such organization as they now suggest. The Star will continue, of course, always ready and willing to do its duty in this particular at all times and under all circumstances, and earnestly beseeches that it may be so backed by the proper concentration and manifestation of District of Columbia public sentiment, as that its future labors in behalf of the District's interests before Congress may be of avail.

ENTERPRISE .- Our neighbor, Gautier, has made extensive arrangements for the commencement of his approaching season, having procured three of the most celebrated French cooks in the northern cities, as well as the best confectioners to be found in the country Really, there is no similar establishment at the North, where things are done up in better style, than at this now celebrated house. His saloon for the accommodation of ladies con tinues to be one of the principal attractions of a stroll on Pennsylvania avenue, either in the morning, afternoon, or evening; while his restaurant, up stairs, is one of the most fashionable resorts of the kind in Washington.

THE RAREST OPPORTUNITY .- The "Ingleside" estate advertised to-day by J. C. Mc Guire, auctioneer, offers a fine opportunity for obtaining in the immediate vicinity of Washington an estate second to no other in the country in its advantages. The mansion is a perfect palace, fitted with all the modern improvements essential in the residence of a gentleman of wealth. The view is second to 27th ult. no other in America, the location is perfectly healthy, and its distance from the President's House and Capitol so little as to make it merely a suburban position. Such an opportunity for a gentleman of wealth to suit himself with a residence here, never was

THE RACE -On Saturday, at 1 p. m., there is to be a match race, mile heats, over the Columbia course, on the other side of the Potomac. The stake is \$500 F. S. Suit enters John Graham, and William Maddox enters Mary Payne. The horses and parties are all from Prince George's; fine sport may be expected. The roads to the course are in capital condition, while the season is most inviting for the drive out. A great crowd may, therefore, be expected.

A WOMAN SWINDLER .- "Ites" of the Organ, gives an account of a female swindler in this city, who has diddled "Cabinet Ministers, foreign ministers, members of Congress, down come it over reporters also? If she has, we advise the poor sufferers to board it out.

Ice.-The cargo of ice which Mr. L. J. Middleton has recently received and is now selling, is a curiosity well worth viewing, in bulk in his large ice house; being by long odds the clearest and most inviting of the handieraft of Jack Frost at the North ever imported into Washington city.

DISTINGTISHED ARRIVALS .- It will be seen by reference to our advertising columns that the celebrated French Giant and the American Giantess, have arrived, and will give their levees at Jackson Hall, commencing this afternoon. They are, perhaps, the greatest curiosities now on exhibition in this country, and no boubt will be visited by large numbers of our citizens and strangers.

THE KUNKELS .- Ho, for the Kunkels! they are to be among us again on Monday next, without fail. Always popular, they are destined to fill the National Theatre, large as it is, on each night of their appearance, as here

THE GLANTZ BROTHERS .-- The brothers Glantz, one of whom shet Mr. Duvall, of Bladensburg, some weeks since, have been presented by the grand jury of Prince George's county-the elder for an assault, the younger for an assault and battery on Mr. E. W. Duvall. They are released upon small bail, and are now in the city.

BALL OF THE EMPIRES -The ball of the Empire Club, which came off last night, was well attended, and conducted with the greatest propriety. All present had a lively and agreeable time of it. "The boys danced, and danced till broad daylight, and went home

with the girls in the morning." THE POOR .- In passing through the city we frequently meet with children in very miserable conditions. Poverty is no crime, but very inconvenient. We hope of our benevolent societies will take the little ones in hand, and supply them with shoes and clothes.

HATS .- Hats, did you say? Talking about hats reminds us that our friend Evans, Pennsylvania avenue, has hats of all descriptions, for sale low. His bats are hats " as is hats " They will hold a brick or any thing else.

INCENDIARISM.-Last night a colored woman, named Elizabeth Hamilton, was arrested and taken to the guardhouse charged with attempting to set fire to the premises of a colored man named George Hunter. The woman did not deny the charge, and she was sent to jail by the justice presiding.

THE TYPES .- Our article yesterday about the National Hotel was full of typographical blunders. In the last paragraph the types made us say, "she guests," instead of "the

No rupture is anticipated between the American and French Governments, although the London Times asserts that it has positive evidence of Soule's complicity with the Red Republicans of France.

The Paris Constitutionel has no doubt that the American Government will repudiate Mr. Soule's acts. The Paris journals, generally, comment temperately on the subject. Mr. Mason is said to have had a conference

with Napoleon about the Soule matter, the re sult of which was unsatisfactory to the former. France and England, it is rumored, have resolved upon sending a strong squadron to

## GEORGETOWN CORRESPONDENCE

GRORGETOWN, Nov. 16, 1854. At the sale of property by Barnard & Buckey, yesterday afternoon, on Lee's Hill sixteen lots were offered, ten fronting on Road street, and six on Valley. Four only were sold and the balance withdrawn. The property is considered valuable, being the most desirable location for private residences in the District. Messrs. John Berry and P. A. Bowen were the purchasers. These sales evidence a great rise in the value of property during the past year. This particular locality is, in con sideration of its natural advantages, more valuable than the ratio of lots in our city.

The proclamation of Mayor Addison appears this morning in the Georgetown Advocate, setting apart next Thursday, the 23d, as a day of thanksgiving and prayer. The Columbia Iron Furnace, at the old (Ma-

The discovery, we are informed, belongs to the owner of this establishment; and this, we believe, is the only manufactory of the kind in this section, if not in the United States.
